Every Single Day, Lives in Ukraine Depend on the Resolve of Partners in Europe and America — Zelenskyy

President of Ukraine Volodymyr Zelenskyy held telephone talks with NATO Secretary General Mark Rutte.

"Mark is well informed about the threats, and we coordinated our activity regarding countries that have the necessary missiles and capability to help. It is crucial to eliminate all bureaucracy and adopt the required political decisions," Zelenskyy emphasized.

The Head of State added that work is ongoing with all partners who can assist with the delivery of interceptor missiles to protect "against such inadequate Russian strikes targeting life, people, and civilian objects directly."

"Literally every single day, the lives of people here in Ukraine depend on the resolve of partners in Europe and America. Thank you for the readiness to seek opportunities and work with Ukraine for the supplies we need," the President of Ukraine added.

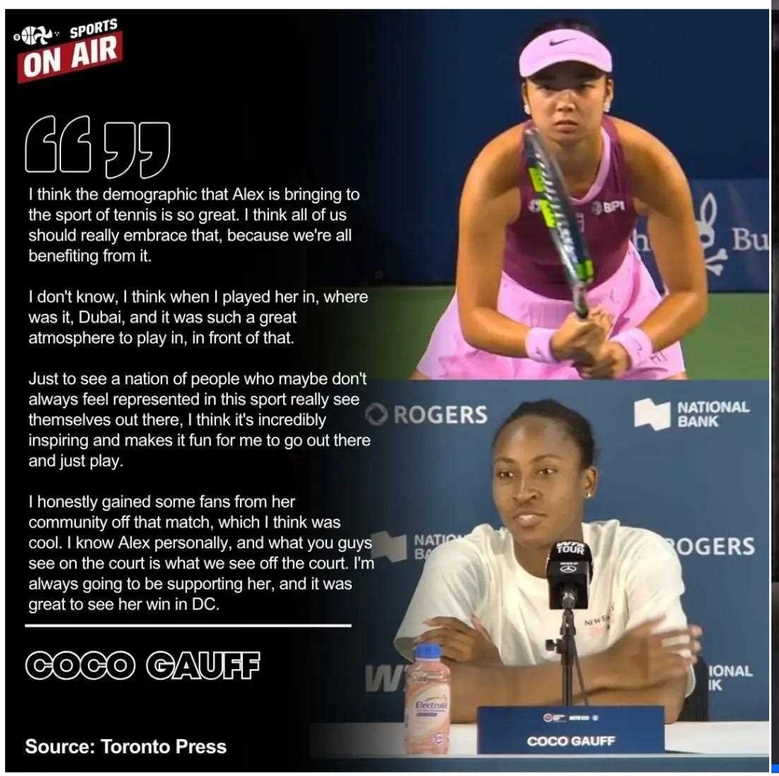
GAUFF: ALEX EALA BRINGS MORE THAN JUST TENNIS... See more



SPORTS ON AIR
I think the demographic that Alex is bringing to the sport of tennis is so great. I think all of us should really embrace that, because we're all benefiting from it.
I don't know, I think when I played her in, where was it, Dubai, and it was such a great atmosphere to play in, in front of that.
Just to see a nation of people who maybe don't always feel represented in this sport really see themselves out there, I think it's incredibly inspiring and makes it fun for me to go out there and just play.
I honestly gained some fans from her community off that match, which I think was cool. I know Alex personally, and what you guys see on the court is what we see off the court. I'm always going to be supporting her, and it was great to see her win in DC.

GIGIL MO AKO, LOLO! 💪

Kinagiliwan online ang reaksyon ni Baby Ayabel habang kinakantahan siya ng kaniyang lolo sa kanilang bahay sa Borongan City, Eastern Samar.

Ayon kay YouScooper Aya Daania 2.0, binabantayan ni Lolo Pio ang kaniyang apong si Ayabel nang maisipan nitong mag-videoke.

Hindi nila inaasahan ang nakaaaliw na reaksyon ng bata, na tila nanggigigil habang pinakikinggan ang pagkanta ng kaniyang lolo at ikinatuwa rin ng kanilang buong pamilya.

people in advance about astronomical events so they have an opportunity to view them as they happen.

Note also that there is some scientific significance as the BBC explains, "This is exciting for scientists, because we know it's happening, and we know the speed and the mass of the rocket stage that will crash into the Moon. We don't normally know that for meteors that crash into the Moon every day. That means scientists will have a lot more information as they study the debris that will be caused by the collision. By studying the light that is reflected from that material, scientists can determine its composition - helping them understand how the Moon has developed and how planetary systems evolved and were formed billions of years ago." HRW says Israel's killing of Lebanese journalist Amal Khalil was 'war crime'
Israeli air attacks that killed Lebanese journalist Amal Khalil and wounded her camera operator Zainab Faraj earlier this year were "deliberate" and are thus "war crimes", Human Rights Watch has said.

Khalil, an Al Akhbar reporter, was killed on April 22 in the southern town of at-Tiri while reporting on Israeli hostilities in southern Lebanon.

HRW said evidence, including a request from the UN Mission in Lebanon and the Red Cross, showed Israeli forces knew the journalists were in the building Israel struck.

The rights group also revealed that Khalil was likely still alive when Israeli forces prevented rescue teams from accessing the journalists' location.

"The evidence is clear that the Israeli military knew, or should have known, that Faraj and Khalil were civilians, but attacked them anyway, and then prevented paramedics from rescuing them for hours," Ramza Kaiss of HRW said in a statement.

REVILLA isang Matibay na katunggali ni Remulla sa politika in Cavite. Kaya Alam na THIS.

21. While it may be true that accused Revilla had no direct participation in the implementation of the project subject of the case, such circumstance, however, does not insulate him from liability as a conspirator. It must be underscored that a conspirator is not required to participate in every stage of execution of the criminal act. It is enough that the accused knowingly took part in the common design and performed an act that contributed to the execution and commission of the crime. Thus, the Supreme Court ruled in People v. Maleta Boy 2: Doon sa salaysay namin, dun sa unang salaysay po sa affidavit, hindi totoo 'yung sinasabi namin.

Mariz: Bakit niyo ngayon sinasabi na hindi totoo? Noon kasi pinanindigan niyo, eh.

Maleta Boy 1: Parang naguguluhan pa kami nun, tapos ang nagawa ng affidavit namin po ay hindi kami po.

Maleta Boy 1: Una kasi diyan, maʾam, may mga pangako po sa amin tulad ng financial na sinasabi nila po na pwede na po kayong hindi magtrabaho ng dalawang taon, tapos meron pa kayong security sa pamilya niyo.

Mariz: Kapalit po ng ano?

Maleta Boy 1: Kapalit po sa ginawa namin na joint affidavit po.
